DUBUQUE PROFITS BY OWNING WATER PLANT

MUNICIPAL OWNERSHIP IS PROVING A SUCCESS IN THAT CITY.

PROFITS ARE PAYING OFF BONDS

Dixon People Will Be Interested in Figures Quoted by the Iowa City.

Is municipal ownership of a water works satisfactory? This question is being asked by Dixon people as a result of the recent agitation of the water question in this city, which resulted in the water company submitting a statement of their receipts and expenditures and also a price of \$150,000 for the plant. Other cities have tried municipal ownership and found it perfectly satisfactory. Dubuque, Iowa, is one of these cities.

A Benefit to All.

Dubuque's report for the fiscal year ending May 31, 1911, has not yet come in, but the report of the previous year shows some interesting facts that are worth considering. They show how valuable the waterworks property can become to a city and what a large revenue can be produced without adding to the burden of the taxpayer. On the contrary, it shows that both taxpayers and water consumers are benefited by municipal ownership.

Remember these figures are for the year ending May 30, 1910 and from the figures for the fiscal year just closed, May 31, 1911, the reports show even better, declares Supt. Stedman.

In the report of the Dubuque city waterworks for the year ending May 31, 1910, the story is told in a nutshell, right at the start.

A Big Profit.

June 1, 1909, there was a balance in the hands of the treasurer of \$4,668.41. Total receipts during the year were \$64,496.25. Total disbursement for maintenance, improvements and all other expenses was \$46,797.89. June 1, 1910, the balance in the hands of the treasurer was \$22,366.77. This means that the waterworks netted the city an income of \$17,698.36.

During the year about \$7,300 was expended for pipes and hydrants and in the construction of extensions. Nearly a mile of new mains was put in during the year at a cost of about \$5,000.

The system at Dubuque is now run on a business-like and scientific basis. Even under a wasteful management a few years ago the waterworks was paying the city dividends well worth while. This great advance of the year ending May 31, 1910, over previous years was due largely to the general installation of meters, ending the waste by consumers. By the general installation of meters the expense of operation was cut down 31 per cent and Dubuque expects the same large returns to the city in the future that it secured during the year 1910.

Earns \$60 Per Day for City.

Dubuque was making a profit of \$25.89 for every million gallons of water pumped during 1910. It was pumping an average of 2,332,774 gallons every day. The waterworks was earning over \$60 every day for the city. At the same time the service was being improved, nearly a mile of new mains was laid and at the end of the year the city had nearly \$18,000 to pay off water bonds.

Meantime Dixon was piling that much money into the coffers of a few money-owners and was begging for additional water service and better fire protection, and was unable to get it.

TEACHERS' EXAMS.

START TOMORROW

The regular quarterly teachers' examination will be held tomorrow and Saturday at the county superintendent's office.

JOHN BURKE IMPROVES.

John Burke, who has been critically ill with pneumonia, is reported to be convalescing slowly and it now thought to be out of danger.

CHURCH TO OBSERVE LUTHER DAY SUNDAY

SPECIAL SERVICES WILL BE CONDUCTED AT ST. PAUL'S CHURCH.

St. Paul's Lutheran Church will have special services on next Sunday. The day will be quite generally observed by Lutherans throughout the country as "Luther Day," because it is the Sunday nearest the anniversary of the birth of Dr. Martin Luther, which occurred Nov. 10, 1483.

At the morning session the pastor will emphasize some phases of the life and work of the great reformer of the 16th century. In the evening the Sunday school will have a fine program of recitations and beautiful songs by the children entitled "Home Mission Crusaders." The large choir will assist in the music.

HEIRESS ADOPTS AN OREGON BOY

IN LINE TO INHERIT MILLIONS—SPRATT TWINS ARE TAKEN ILL

Oregon Ill., Nov. 7.—Leslie E. Wheeler, a former Oregon boy, is the recipient of unusual good fortune. He has been adopted by Mrs. Anna P. Reid, a Boston heiress, now living in San Francisco. Mrs. Reid has adopted the young man and will make him her heir. He will soon be come of age. He is the son of Mrs. R. M. Wheeler, who formerly resided in Oregon.

Miss Lizzie Spratt, 16-year-old twin daughter of Mr. and Mrs. Jonas Spratt of Taylor township has been alarmingly ill with ptomaine poisoning during the past week, but at present is improving slightly. Miss Spratt and her brother Stewart, attended a party at the home of a cousin in honor of his birthday, and the oysters eaten on that occasion are given the blame for the present trouble. Her brother, Stewart, succeeded in ridding his stomach of the offending food he had eaten and recovered in a few days. The other twin daughter, Miss Bessie Spratt, is recovering from a very serious attack of pneumonia. A practical nurse from Dixon is assisting in the care of the young ladies and Dr. L.E. Schneider of Oregon is attending them.

CITY COMMISSIONERS

GOING TO FREEPORT

Commissioner M. J. Gannon and possibly several others of the city council are planning to go to Freeport this evening to attend the meeting of the city council of that city. The waterworks question comes up for settlement at the meeting of the Freeport council tonight and the local officials see an opportunity to get some good information.

STERLING FIGURES ON NEW BRIDGE

SPECIAL COMMITTEE RECOMMENDS STARTING 15TH AVE. BRIDGE FUND.

MAKE ANNUAL APPROPRIATION

Would Set Aside \$5,000 Annually as Fund to Build Modern Bridge Across River.

In the Sterling city council this week a movement was started for the construction of a new bridge across Rock river at First avenue in that city. Alderman Forster, head of the special bridge committee, read a report which made recommendations for the care of the present bridge and in which there were two recommendations which caused some surprise. One of these was that all pleasure vehicles drawn by one horse, and automobiles be allowed to travel ten miles an hour on the bridge.

Recommends Repairs.

The committee reported that the rollers supporting the chord reports had rusted and become solid, preventing contraction and expansion. Eyes on the diagonals and lower chord bars had become slightly worn, and this with the solid bearings causes beams and chords to rattle.

The Recommendations.

The report recommended that new rollers be put under the posts where needed. That angle bars be tightened. That all iron work be cleaned and given a coat of paint. Other specifications also were recommended.

33 Years Old.

The bridge is now 33 years old, so the report says, and too light for the travel of today. The report was signed by Forster, Gifford and Lawrie.

New Bridge Fund.

There has been much agitation for the establishment of a new bridge fund. This appears to meet with universal approval. It is the consensus of opinion that the new bridge is not far distant and that the council take steps toward getting a fund to build a new structure. Neither is there any doubt that the bridge is in need of repairs, and the quicker they are made the better.

Would receive Aid.

Those who are advocating a new bridge believe that a viaduct should be built starting on First avenue a few hundred feet south of Third street, passing over the railroad tracks. It is the belief that both the Q. and Northwestern would willingly stand their share of the cost and assistance might also be secured from the street car company.

Should Be Wide.

It is the general opinion that the bridge should be wide enough for a double track, an additional 24 feet for vehicles and that it should be substantial enough so that a speed limit would be unnecessary. The report by the special committee is the first official action taken by the city council.

SHORT WEIGHTS ARE BANISHED AT KEWANEE

Kewanee, Nov. 9.—By a comprehensive weights and measures ordinance adopted last night by Kewanee's city commissioners, the sale of potatoes is prohibited except by standard weight and the sale of bread prohibited unless each loaf weighs 12 or more ounces.

CLAIMS HE WAS ROBBED IN STERLING

INTOXICATED CITIZEN OF MANLIUS COMPLAINS TO POLICE.

Sterling, Nov. 9.—A stranger giving the name of J. White, of Manlius and claims to be a blacksmith reported to the police Tuesday that he had been robbed of \$450 in checks and blank certificates. He was decidedly drunk when he reported the matter and gave evidence of having been much drunker at the time he says he was robbed.

Officer Carter accompanied White on a tour of several saloons where he claimed he spent the evening. Investigation showed that the fellow had been refused drink in several saloons because of his condition. He had thrown checks around on the bar promiscuously and the evidence shows that if he had been robbed he deserved it.

NEW CITY OFFICIAL MAY BE APPOINTED

CITY INSPECTOR OF WEIGHTS AND MEASURES IN CONTEMPLATION.

A city inspector of weights and measures is in prospect and if the present plans of the commissioners materialize an ordinance providing for such an officer and his duties will be passed in a short time. The commissioners are interested in the action of many other cities in this vicinity where such office has been created and it has been found to be very beneficial.

The duty of the new official will be to inspect all scales used in the city and ascertain if they give correct weight, correct scales being sealed by the inspector. Measures will also be inspected and a city scales would also be installed for the convenience of those having weighing to be done. An ordinance of this character has just been passed in Kewanee, and the city clerk of that municipality has been requested to send a copy of the ordinance to the local council.

CLAIMS BESSIE KENT WEBSTER IS ALIVE

SMALL CREDESCENCE GIVEN STORY TOLD BY DR. WEBSTER'S ATTORNEY.

Attorney Francis Callahan, one of the associate attorneys for Dr. H. E. Webster, who is in jail at Oregon awaiting his trial for murder at the coming term of the Ogle county circuit court, is credited with making the astounding statement that Bessie Kent Webster, as whom the body found in the Schorr woods northeast of this city, was identified, is alive at Manistee, Mich.

The morning Chicago papers quote Callahan as stating that the woman was alive, proving his contention that the identification of the body found here in October was incorrect. However, this talk of Callahan's is ridiculed by those who know the case, and it is believed to be merely a move on the part of the attorney to get his name into print. Webster's confession of murdering his wife, and the absolute identification of the remains by Dr. W. E. Thomas, make such a statement ridiculous.

POTTER CRAFTSMAN ENTERTAINED ELKS

SMITH DAMRON DELIGHTED BIG AUDIENCE AT CLUB LAST EVENING.

ARTIST WITH HANDS AND BRAIN

Mixed Humor and Philosophy While He Moulded Clay Into Beautiful Forms.

Smith Damron, the potter craftsman, is surely wonderful beyond the wildest imagination of those who have never seen a potter at his wheel.

A wizard with his hands, also very handy with his tongue, he entertained a capacity house at the Elks club house in their lodge rooms in this city last evening. The audience was composed largely of women and children, although there were many men in evidence.

Smith Damron, beside being a potter, is something of a moralist. He interspersed many barbed side remarks along with his lecture and he had many of his listeners wishing he could just keep that man modeling clay jugs instead of pointing out his bad habits, with his wife sitting right next to him.

The entertainer introduced his subject by speaking of some of the leading industries of the world and their bearing on civilization. Next he told several biblical stories. Told of Rebecca at the well and the earthen water jar which she used to carry water in. He pictured the shop and home of an ancient potter and the crude machinery the pioneers in that vital industry were forced to work with.

Mr. Damron told of how the clay is secured and where it is found in the largest quantities and in best quality.

While the potter talked he worked.

He took slabs of clay two or three inches thick and ten or twelve inches in diameter. By means of a tightly stretched wire he would cut the slab of clay into smaller pieces, "wedging" them together, as he called it. It was a sort of kneading process, and was done to get any possible air bubbles out of the clay. He next shaped the lump of clay into a wad about the size of the crown of a sailor hat and raising it aloft, slapped it onto the potter's wheel, which is a flat iron disc which revolves on the table and is propelled by a foot treadle underneath. He then sprinkles water on the clay to make it slippery and to prevent crumbling when he applies his hands.

By applying pressure he brings the lump of clay to a true center of the wheel. The next move is to press the fingers down into the center of the clay until he has rounded out a place the size he wishes the bottom of the proposed vessel to be and has reached the desired thickness of the bottom. Then, with one hand on the inside and one on the outside, in some miraculous way, he raises the sides of the jar or jug, or vase, as the case may be. He then has a vessel, but of no particular shape. A "potter's rib" is next produced. It is a small wood instrument with variously shaped edges, used for putting the final graceful shape and curve on the outside of the vessel and for making the outside smooth, removing ridges left by the fingers in the preliminary moulding. This is all done in much less time than it takes to tell it and the workman holds up to view a gracefully shaped jar or vase, or even water pitcher by applying an ingeniously and quickly made handle.

Smith Damron is a good entertainer. There is something doing all the time he is on the rostrum, for even as he accomplishes the most delicate turns in his work, he is making caustic remarks and generalizing on life. He made many shapes and fashions of vessels and explained in detail the process. He, of course, could not go beyond the moulding, in his work, for the glazing, etc., is a process that could not be demonstrated on the stage.

He told the ladies how to tell real hand-painted china, and explained how so much of the so-called "hand-painted" china is made by taking im-

pressions of the plate or cup from colored paper which contains the outline of the flower and the flower is transferred from the paper to the plate, being covered by a gluey substance which absorbs the color and holds it.

His talk was extremely interesting and was one that one could not well afford to miss.

After the lecture the ladies were escorted to the main floor where a corps of pretty girls, dressed as Japanese maidens, served chocolate and wafers, etc.

The House committee of the Elks wish to thank the members of the Little Colonel club for serving.

PARTY LEADERS SO PLACE FIVE OF THE LARGER ONES.

AFTER EFFECTS OF ELECTIONS

Machines Get Black Eye—Jars Given to Tammany, Penrose and German Significant.

Washington, Nov. 9.—The national effect of the state elections of Tuesday is not overestimated by political leaders of all parties and factions represented in Washington.

Leaders of both parties practically were unanimous in pointing out that local issues were the deciding factors in almost every instance, but they did not overlook the really significant phases of the elections, among which were cited:

Re-election of Governor Foss of Massachusetts, which will seriously dampen the ardor and the influence of the "stand pat" element of the Republican party in New England and in Congress.

Return of a Republican legislature in New Jersey, which seems to preface a hard fight at home for Governor Woodrow Wilson's presidential boom.

Democratic victories in the Ohio municipal elections, which will undoubtedly assist the presidential boom of Governor Harrison.

Narrow escape of the Tammany county ticket in New York, the defeat of the Penrose machine in Philadelphia and the overthrow of the Gorman machine, in Maryland—all of which were accomplished by independent voting.

Democratic leaders particularly regard the outcome in New York as indicating that the up-state voters object to a Tammany legislature and a Tammany state administration, and they believe that persistence on the part of Tammany to hold the whole state next year may jeopardize Democratic success.

Leaders on both sides did not hesitate to say that at this stage the great states of New York, Ohio, Massachusetts, New Jersey and Maryland, judging from the election, must be placed temporarily in the doubtful column, with respect to the national election of 1912.

The Foss victory in Massachusetts was pleasing to Democrats and Republicans alike in Washington. It is interpreted here to mean a decline in the influence of Senators Lodge and Crane in the councils of the Republican party, a thing especially welcome to the progressive element.

FIVE McNAMARA JURORS KEPT

One, Whose Mother Is Ill, Seeks Release from Los Angeles Trial.

Los Angeles, Cal., Nov. 9. — Three out of five talesmen objected to being sworn as jurors in the McNamara murder trial at the opening of court.

Byron Lisk, a mill owner, William F. Clark, a retired farmer, and Sam Mendenhall, an orange grower, were the men who objected to trying James B. McNamara for his life on a charge of murder in connection with the death of Charles J. Haggerty, a machinist, killed with twenty others, as a result of the Los Angeles Times explosion. Mendenhall's mother is near death. Immediately after the talesmen were sworn the court, by agreement of counsel, took the talesmen into his chamber one at a time and heard their excuses.

RODGERS REFUSES CUP

Declares That Hearst Trophy Is Too Cheap for His Acceptance.

Pasadena, Cal., Nov. 9. — C. P. Rodgers, who flew from the Atlantic to the Pacific, making a new world's record, declined at a banquet given in his honor here to accept a \$500 cup offered to him by a representative of William R. Hearst.

Rodgers said that Mr. Hearst was a prier and that more valuable cups were given to the winners of significant yacht races.

HIGH PRICE FOR STRAW.

A \$10 bill is a good price to pay for a load of straw, but the Genesee Republic tells of such a sale when C. B. Hamilton bought of Hart Sweeney near Genesee a load of straw which the buyer insisted should be particularly high class and in no way exposed to the weather. He is reported to be well satisfied with the straw and paid the price, the highest ever paid here.

At Cards

Mr. and Mrs. J. M. McCreary entertained a number of friends at their home on Monday evening. Six handed euchre was the game which afforded amusement during the evening hours. A dainty supper was served afterwards and on departing the guests had the happiest memories of a delightful evening.

Pierson-Adams

Saturday afternoon at 4 o'clock, at the home of the bride's parents in Austin, Ill., occurred the marriage of Miss Nina Pierson and Dr. Melvin Adams, well known young people of Austin. Rev. J. Ladd Thomas, pastor of the Methodist church of Austin, and to which church the bride belongs, performed the marriage ceremony.

The bride wore a beautiful gown of hand made lace over a foundation of white silk and carried a bouquet of bride's roses and in her hair wore a wreath of 'Wes' of the valley. Her maid of honor was Miss Ada Fitch and the best man was Dr. L. B. Joslyn. Miss Elizabeth Robinson was flower girl, and Mrs. Lillian Francis mistress of ceremonies and Master Edgar Kelly was the ring bearer.

The wedding march was played by Miss Elizabeth Barton.

The bride is a cousin of Miss Vera Jacobus of Dixon and has visited here many times and was very popular during her visits. She is very accomplished and has been a valued member of the choir of the Austin Methodist church for a number of years, and was second soprano of the quartet led by Mrs. George Heritage, who was formerly of Dixon. For the past five years she has been kindergarten teacher at Gads Hill settlement in Chicago.

Dr. Adams graduated from Northwestern Dental college and makes his home in Marengo where he will take his bride to reside.

Chautauqua Circle.

The Chautauqua Circle will meet this evening with Miss Dora Breed, 819 North Galena avenue.

Week End Guest.

Dr. Brodbent of Chicago will be an over Sunday guest at the Dr. Z. W. Moss home.

Elks to Sterling.

A number of Dixon Elks will go to Sterling this evening to attend the informal dancing party to be given in the Sterling B. P. O. E. hall.

Card Party.

The Loyal Order of Moose will give a card party for members and friends tomorrow, beginning at 8 p. m. Refreshments will be served. It is requested that all members of the order be present and that they bring friends with them. A pleasant evening is in store for all attending.

Ideal Club.

The Ideal club was entertained at the home of Mrs. Kirby Reed Wednesday afternoon. A good attendance of members answered to roll call with quotations.

A piano solo by Mrs. L. W. Newcomer opened the program. This was followed by an interesting paper on "Importance of the Border States, and of Rivers and River Fleets in Civil War Period of United States History," by Mrs. Rodney Ayres.

Dainty refreshments were served by the hostess and the usual social half-hour concluded the interesting meeting.

Birthday Surprise.

Dr. W. J. Worsley cleverly planned a birthday surprise for his wife last evening and was ably assisted by the ladies of the Practical club, whom he invited with their husbands and children, to spend the evening at the Worsley home. Mrs. Worsley was taken completely by surprise by the 35 guests. A delightful evening was spent in games and some of the members read some original poetry which was most amusing, and sundry other surprises were also in evidence during the evening. A fine oyster supper was served and a snow-white birthday cake illuminated with candles graced the table. Another pretty compliment paid to the hostess of the evening was the gift of a beautiful hand-painted plate. A number of interesting games were played and music was enjoyed and at a late hour the guests departed with happy memories of the evening.

Recital By Music Pupils.

A recital will be given by the advanced graduates of Strong's College of Music at Coppins' hall this evening. The admission will be free and the public is cordially invited to attend. The following program will be given:

CHILDREN INJURED

ORDINARY CATHARTICS AND PILLS AND HARSH PHYSIC CAUSE DISTRESSING COMPLAINTS

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea and other distressing after-effects that are frequently health-destroying.

We personally recommend and guarantee Rexall Orderlies as the safest and most dependable remedy, which we know, for constipation, and associate bowel disorders. We have such absolute faith in the virtues of this remedy that we set it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regenerative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies commonly completely relieve constipation, except of course, when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes of packages, 10 cents, 25 cents, and 50 cents. Remember, you can obtain Rexall Remedies in Dixon only at our store.—The Rexall Store. C. M. Campbell & Son, 105 First street.

DR. W. F. AYDELOTTE

Neurologist. Phone Home 160 for free appointment, 223 Crawford Avenue, Dixon, Illinois.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeits are as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

MRS. VERMILYA SUDDENLY SICK

Symptoms Same as When She Took Rat Poison.

ROMANCE OF PAST UNEARTHED

Detective Finds Old Acquaintances of Accused Woman in Barrington, Ill., and Hears Some Interesting Things.

Chicago, Nov. 9.—Mrs. Louise Vermilya, held at the county jail charged with murdering Patrolman Arthur Bissone, suffered a relapse, showing in her illness the same signs she betrayed when she took rat poison at her home on Saturday.

The jail physician, Dr. Thomas Hogan, was called and believed it was only a nervous attack. Every bit of food she has eaten has been subjected to a thorough test and a guard has remained on constant duty since she was locked up.

When Mrs. Vermilya was taken to the jail she was stripped of her clothing, her hair was let down, and a thorough search for poison was made by Matron Mary Small. No one has been allowed to send her a bite of food from the outside.

A tangled romance, in which Mrs. Vermilya is alleged to have won her second husband while his first wife was still alive, was revealed at Crystal Lake.

In an effort to unearth a gigantic insurance plot, Detective Roy Hessler unearthed the romance of almost a quarter of a century ago. He located Mrs. Harvey Cox, who knew the accused woman when she was a Barrington, Ill., beauty.

Mrs. Cox met Mrs. Vermilya frequently on her visits to Crystal Lake, but declares that she dropped her when gossip began to connect the names of the Barrington belle and Mr. Vermilya, who became her second husband.

"Mrs. Vermilya was a widow at that time," said Mrs. Cox. "Her first husband, Mr. Brinkamp, had died but a short time before. I do not know where she met Mr. Vermilya, but I do know that she was a regular caller at his home. She made two trips each week from Barrington. These calls were extremely distasteful to the first Mrs. Vermilya.

"Over the protests of the wife, Mrs. Brinkamp was received graciously, however, although the husband could not help but realize that the visits were breaking his wife's heart. Finally the first Mrs. Vermilya died. No one knew the circumstances, but common gossip had it that she died of a broken heart."

It was rumored that the body of Charles Vermilya, the second husband, would be exhumed following the disclosure made concerning Mrs. Vermilya's attentions to him before his first wife died.

UNVEIL A GREAT LINCOLN STATUE

Memorial of Heroic Size in Kentucky Capitol.

TAFT AND OTHERS TAKE PART

Memory of the Martyred President Is Lauded by Governor Willson—Many Former Slaves Witness Ceremonies.

Louisville, Ky., Nov. 9.—One of the most enthusiastic crowds that has greeted President Taft in his entire 15,000 miles of journeying was turned out by this city twenty-four hours after the city had counted up a big Democratic majority in the state elections.

The president arrived here after a day in Frankfort at the dedication of a memorial statue of Abraham Lincoln. The Boy Scouts of the town acted as escorts to the president and they made a pretty picture for his parade from the depot to the hotel by forming in open ranks ahead of his automobile and waving sticks of red fire.

Earlier in the day the president and vast assemblage of people, including many of those who were the gray in the confederate ranks, north and south, looked on, a heroic bronze statue of Abraham Lincoln was unveiled in the capitol building in the state in which the war president was born.

"Proof of a reunited country," said Governor Willson of Kentucky in accepting the statue on behalf of the state, "is made evident in the selection of Henry Watterson, a confederate soldier, to present this image of the great president to the people of his native state. The greatness and the goodness, the nobility and the sweetness of Abraham Lincoln are recognized as earnestly by those who wore the gray as by those who wore the blue."

Governor Willson said the statue would stand in the capitol "through all the ages as the central figure, the type and image of the pioneers of Kentucky and of all American pioneers, the best figure, and representative of the spirit of our people, an inspiration to Kentucky for all time, a guardian spirit standing for eternity in sleepless vigil over our liberties and our hopes."

The addresses of President Taft and Governor Willson singularly agreed in almost identical declarations that of all figures in national history there is none that is calculated to bridge the chasms of sentiment between sections as is Lincoln's.

In the big crowd that saw the statue unveiled were many negroes who grew up slaves, and among them were several who claimed to have remembered the Lincoln family in the early youth of "the Emancipator."

The unveiling of the Lincoln statue preceded the dedication of the Lincoln memorial at Hodgenville, Ky., by one day. Many of those who came from distant states to Frankfort to attend the exercises here will continue their journey to Hodgenville.

There is the Lincoln farm, where the cabin in which Abraham Lincoln was born, is now preserved in a monumental structure recently completed.

It is the dedication of this memorial which attracts President Taft to Hodgenville.

CHINESE CAPITAL OUTWARDLY CALM

Anxiety Is General and Panic Thinly Concealed.

MANCHUS ARE STILL FLEEING

Plan to Cut Tien Tsin Railroad in Order to Stop Rebel Advance, Is Protested by British Minister.

Peking, Nov. 9.—General anxiety in the capital will not abate, though everything is outwardly quiet.

The flight of the Manchus continues, while sections of the Manchurian guards are constantly leaving for the northward. The departure of the court is hourly expected.

There are innumerable rumors of the movements of Chinese troops around the capital, reported to be concentrating at the direction of the revolutionists. The advance guard of the Manchurian army has not advanced on Peking, but Sir John Jordan, the British minister, protested on the ground that Great Britain was empowered, under agreements, to operate the line if traffic were stopped. The scheme consequently was abandoned.

The rebels are reported to have secured the Kalgan railroad and are moving troops thereby in the direction of Peking. The imperial troops at Hankow are cut off from Peking, owing to the fact that the rebels control the road to Chen-Ting-Fu. It is estimated that 18,000 Manchurian troops are within Peking upon which the throne may rely. Besides there are 9,000 police.

The revolution spreads apace in the provinces which hitherto have receded. Nanking has surrendered after a brief resistance, the viceroy having received orders from the government to yield.

MILLIONS OF FOLKS USE ONLY CASCARETS

THEY NEVER HAVE HEADACHE, BILIOUSNESS, SLUGGISH LIVER OR BOWELS OR A SOUR, SICK STOMACH.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets and quickly too.

Don't let your stomach, liver and bowels make you miserable another moment; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other diseases; cleanse your inside organs of all the poison and effete matter which is producing the misery.

Take a Cascaret now; don't wait until bedtime. In all the world there is no remedy like this. A 10-cent box means health, happiness and a clear head for months, no more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a good, gentle cleansing, too.

TRANSATLANTIC FLIGHT PLAN

Adventurous German Would Make Trip in Big Dirigible.

New York, Nov. 9.—Dr. Paul Gann of Berlin, who plans to cross the Atlantic ocean in a dirigible balloon, starting from Tenerife and landing at Barbadoes, probably the course followed by Columbus, arrived on the Kron Prinzessin Cecilie. He has a letter from the German emperor and will go to Washington to see President Taft and navy officials.

"Our expedition will start in March," said Dr. Gann. "We will sail a dirigible balloon about 260 feet in length and of 200 horse-power and we will make Barbadoes in four days."

BALFOUR STEPS ASIDE

Former Premier Resigns As Leader of the Opposition.

London, Nov. 9.—A. J. Balfour has resigned the leadership of the opposition. The news caused the utmost surprise and, in some quarters, consternation.

It is understood that Mr. Balfour's decision is unalterable. He advances the condition of his health as the reason for his withdrawal, but there is no doubt that the bickering in the party ranks was the primary cause. He will remain in parliament.

AEROPLANE FOR HUNTING

Texas Ranchmen Buy One With Which to Find Wild Animals.

Galveston, Tex., Nov. 9.—Ten ranchmen owning about 150,000 acres of land in Pecos, Brewster and El Paso counties, stocked with 200,000 or more cattle, have invested in an aeroplane, not for pleasure purposes, but to hunt wild animals.

They have been investigating the proposition of ridding their lands of the wolves, panthers and mountain lions which infest that section and kill cattle.

Court Records Destroyed.

New York, Nov. 9.—Twelve years of the court records of the west side court of New York city are in ashes as the result of a fire which swept the basement of the building.

KNOX TALKS IN CINCINNATI

Defends General Arbitration Treaties of Administration.

Cincinnati, Nov. 9.—Secretary of State Knox delivered a speech here in support of the general arbitration treaties with England and France, now pending for ratification before the United States senate.

Mr. Knox's speech was the administration's formal answer to the report made by the majority of the senate committee on foreign relations against the treaties.

FERNANDO JONES IS DEAD

Chicago's Oldest Citizen Passes Away Quite Suddenly.

Chicago, Nov. 9.—Fernando Jones, Chicago's oldest inhabitant, is dead. He was ninety-one years old and was ill only since Tuesday, when he was sent to bed by his physicians.

For a quarter of a century Mr. Jones was one of the most picturesque characters in Chicago. He prided himself on being the oldest Chicago resident in point of length of residence and nothing pleased him so much as to relate stories and anecdotes of the pioneer days of this city.

Town Forbids Basketball.

LaCrosse, Wis., Nov. 9.—The board of education of the city of Sparta, Wis., has issued an order forbidding the playing of basketball by girls' teams in the high schools, the point being made that public exhibitions by girls' teams are not conducive to good morals.

ASSISTED GIRL TO GAIN
AN EDUCATION

DeKalb Review: A few years ago a girl from Whiteside county attended the DeKalb normal school. While here she made her home with Mr. and Mrs. Henry Morrell on College avenue, and they became interested in her welfare. Without giving an satisfactory reason the student went home and did not return. Mr. and Mrs. Morrell discussed the matter and decided the girl did not return on account of a lack of funds. Mr. Morrell went to Whiteside county and found that such was the case. He proposed that she return and that they would furnish her the money needed, take her note which she could pay when she graduated and as convenient. The lady came back and graduated and Mr. and Mrs. Morrell presented her with the note as a graduating present. It demonstrates that there is some good left in the world.

ROCKFORD SEEKING
I. N. G. ENCAMPMENT

IF DIXON WANTS GUARD ENCAMPMENT AGAIN WIRES MUST BE LAID.

Rockford Republic: With the expectations of over 5000 soldiers of the I. N. G. being near Rockford next year, the Chamber of Commerce is making every effort to land the big encampment. Secretary Brown of the Chamber of Commerce will go to Springfield to see the state officials and try to land the big roundup. Two brigades will be in the encampment and this will mean about 5,000 soldiers.

Mayor W. W. Bennett, A. G. Brown, Capt. W. S. Woodburn and Quartermaster W. H. McDermaid yesterday visited the park commissioners with a view to securing the park and offering it for the encampment. No definite answer was given the representatives, but it is believed the ground will be allowed for use of the I. N. G.

Other cities where the encampment has been held have sought to secure it permanently. If Rockford secures the encampment for 1912 every effort will be made to make this a desirable city for the soldiers so the chance of securing it other years will be increased.

ROCK FALLS HAS
SHOOTING SCRAPE

ITALIAN HAD SIDE OF HIS HEAD BLOWN OFF THIS MORNING.

Sterling, Nov. 9.—A shooting affray occurred just before noon today in the west end of Rock Falls during a general fight in a colony of Italian workmen employed on some municipal contracts. As a result one man may die.

The row started last night between two of the foreigners and when one pulled a gun the weapon was taken away from him by others of his fellow workers. Today the men were loafing around on account of the rain and the trouble started again just before noon and the man who had the gun taken from him last night returned with reinforcements. A dozen or fifteen revolver shots were exchanged and then a shotgun brought into play. The charge from the shotgun struck one of the men in the face and severely lacerated the right side of his head and destroyed his right eye. The advent of the shotgun was too much for the belligerents and they scattered. The physician who is caring for the wounded man does not know whether he will survive or not.

TRAVELERS BEGIN WAR ON TIPPING

COMMERCIAL MEN SAY THEY PAY \$50,000,000 YEARLY IN GRATUITIES.

Commercial travelers of the United States have started a campaign against hotel tipping which they say costs them \$50,000,000 yearly.

That sum, according to P. E. Dowe, president of the Commercial Travelers' National league, is disbursed by salesmen annually among bellboys, waiters and porters in addition to \$350,000,000 paid as regular hotel charges.

President Dowe has mailed to the various associations of hotel proprietors what he calls the final call of traveling salesmen.

Will List Rooming Houses. In this he serves the following ultimatum:

"The traveling men, forced to action in self-protection, fully aware of the fact that increased expenses will mean decreased salaries under present business conditions and finding but one way to bring hotel proprietors to a realization that they have underrated public sentiment against the tipping abuse, are preparing to compile lists of private houses where transients can be accommodated.

"For commercial salesmen with trunks it is proposed to establish in the central location of each city a loft or loft divided into light, clean show rooms. Many hotel sample rooms are in damp, unhealthy basements as numerous commercial travelers evidence by doctor bills.

Food Adds to Expenses.

"Hotels in larger cities are mostly run upon the European plan, with rooms \$1.50 per day and up. This and high priced bills of fare have added \$1.50 a day to the expenses of the traveling man as compared with former American plan averages rates.

"Hotel guests are expected to hand out the coin for every service or at attention by the hotel help from the bellboy who carries the grip of an incoming guest to his room until the rakeoff is provided to the porter who calls a cab or carries a grip from the doorway to the bus."

LINCOLN MEMORIAL DEDICATED TODAY

CULMINATING FEATURE OF LINCOLN FARM MOVEMENT BEGUN FIVE YEARS AGO

Hodgenville, Ky., Nov. 9.—The movement inaugurated five years ago by Robert J. Collier of New York for the erection of a suitable memorial to Abraham Lincoln at the place of his birth is now an accomplished fact. Today in the presence of a gathering in which Mason and Dixon's Line was obliterated, impressive exercises were held in dedication of the magnificent memorial structure surrounding and covering the old log cabin in which Abraham Lincoln was born, Feb. 12, 1809.

The cornerstone for the memorial structure was laid by President Roosevelt on the centennial anniversary of Lincoln's birth two years ago last February. At the dedication today President Taft was the central figure. The exercises were held at the Thomas Lincoln farm, which was purchased by the Lincoln Farm association several years ago with a fund raised by popular subscription. After acquiring the property the association proceeded with the erection of the memorial building to protect for all time the lowly cabin in which the martyr president was born. The memorial stands on a slight elevation where stood the original Lincoln homestead. Some years ago the cabin was removed for exhibition purposes but was restored to its original site when it came into possession of the Lincoln Farm association.

The memorial building is an imposing structure of white stone. It is of classic design, with giant pillars ornamenting the front and two sides. The entrance is approached by a very broad flight of terraced steps.

Considering the fact that the civil war, of which Lincoln himself was the central figure, was fought out only half a century ago, it is regarded as of especial significance that the dedication of a memorial in his honor should be an event of such national interest and national importance.

Foremost among the members of the committee acting as personal escorts to the president from the station in Hodgenville to the scene of the day's ceremonies were Gen. Basil Duke, representing one of the foremost Kentucky families that fought for the Confederacy and Gen. John B. Castleman, who entered the Confederate army at the age of 19 and won his spurs as a member of Morgan's cavalry. The military escort to the president was furnished by Company A of the First regiment of the Kentucky National Guard, in command of Gen. Roger Williams.

The dedication exercises were of a simple but very impressive character. In addition to President Taft the speakers and prominent participants included Henry Watterson, who delivered one of the principal orations; Governor Augustus E. Willson, representing the state of Kentucky, and Robert J. Collier, who inaugurated the Lincoln Farm association movement.

FIRST BOARD NAMED FOR AMBOY CLUB

Articles of incorporation of the Amboy Commercial club were filed today in the circuit clerk's office, thus completing the legal work of the organization of Amboy's newest society which has been organized for the purpose of furthering the business interests of the city and for the social enjoyment of its members.

The articles provide that the club shall be governed by a board of seven directors, to be elected annually, and the first board is composed of the following members, who are also incorporators: R. V. Moore, H. H. Badger, F. L. Doty, W. L. Berryman, G. L. Carpenter, W. E. Clark and D. L. Berry.

An Eye For Lines.

"The last time I was here I saw that same woman," said the man who was waiting for his eyeglasses to be adjusted. The optician looked across the room to a little woman in faded black. "Yes," he said, "and if you should be here three months from today you would see her again. She comes every three months. She is a palmist. Nobody gives closer attention to the eyes than the professional palmist. Most of them wear glasses, and they visit an optician regularly. With every change in their eyes their glasses are changed. They have to do that to keep track of all the fine lines in their clients' hands."

"They have keen eyes themselves, those persons who patronize palmists, and are apt to pick out any number of little straggling lines and ask what they mean. If the palmist can't see the lines herself she is likely to get into trouble."—New York Times.

TWO BOYS ISSUE HIGH SCHOOL PAPER

THE N. D. H. S. BUGLE POPULAR WITH NORTH SIDE PUPILS.

Two boys of the North Dixon high school have successfully launched a school publication which has met with immediate popularity among their fellow students and the teachers so that they are encouraged to make the publication a permanency. These enterprising young men are Edward T. Howell and Robert Fulton Jr.

They call their enterprise the N. D. H. S. Bugle and the November issue, which is the second number, is now in circulation. The paper is "published monthly, except Sunday," according to their heading and sells for two cents a copy. The present number is resplendent with a pink sporting sheet in the most approved style. The boys solicit some contributions but do all the mechanical work with press and type at the home of one of the publishers, Edward Howell. There is some excellent high school material in the paper and the boys have reason to be proud of their enterprise.

WILD PIGEONS APPEAR IN LARGE NUMBERS

Wild pigeons in great numbers have appeared at both Seguin, and Liversia, Texas. At first few came, but later they came by the thousands. These are the same kind of pigeon that was so numerous in the wooded districts of America forty or fifty years ago. Where they came from is something of a mystery, but their appearance disputes a story sent out from Cincinnati some time ago that the last passenger pigeon was in captivity in a museum in that city where it had been confined for fifteen years. There is no mistake about the pigeons appearing near Seguin and Liversia being the passenger pigeon of the old days, since many old settlers recognize them on sight. According to reports they have been so numerous about Seguin that farmers have been compelled to use some effort to keep them from one of the publishers, Edward Howell, destroying crops.—Texas Realty Jour

Children are Entitled to Underwear Comfort and Fit as Well as Grown-Ups

They get both in Athena Underwear.

Children, from ages about two to six are broad in stature in comparison with height, while those from six to sixteen are usually tall and thin.

These facts have heretofore been overlooked in designing children's underwear.

Athena underwear for children is sized by ages—not numbers. Ask for "age two" for a two-year-old child, "age ten" for a ten-year-old child, and so on. This system of sizing insures a proper fit, age for age, and makes it easy for the mother to get garments that fit correctly, without many trips to the store.

For Women

No woman can ever know real comfort in knit underwear until she becomes acquainted with the perfect shaping of Athena underwear. It fits snugly to the figure—does not wrinkle under the corset. It is exquisitely trimmed. In all fabrics, weights and shapes at the price you usually pay.

OHIO CITY ELECTIONS

Democrats, Republicans and Socialists among Victors.

Socialist Vote Shows Increases All Over State—Brand Whitlock Wins in Toledo.

Toledo, O., Nov. 9.—Revised returns show the elections of Democratic mayors in the big cities of Ohio, repudiation of President Taft's ticket at Cincinnati, the election of Brand Whitlock, independent mayor of Toledo for the fourth term, the election of Socialist mayors in eleven of the smaller cities and an increase in the Socialist vote all over the state.

Out of a total of ninety-three cities and towns in all parts of the state complete returns show the election of forty-three Democratic mayors, thirty-six Republicans, eleven Socialists and five independents.

At Toledo Brand Whitlock won by 3,500, carrying his entire ticket with him with the exception of police clerk. Complete returns elect Socialist mayors in Canton, Barberton, Cuyahoga Falls, Salem, St. Mary's, Lorain, Fostoria, Martin's Ferry, Toronto, Lima and Mt. Vernon, while in Kinmore the result is yet in doubt.

WOMAN WINS ELECTION

Wages Successful Campaign Against Bond Issue in West Hammond, Ind.

Hammond, Ind., Nov. 9.—Miss Virginia Brooks of West Hammond, the young reformer, won her most brilliant victory when the citizens repudiated the Interstate Electrical company bond issue in the special election by a vote of 3 to 1. Miss Brooks held mass meetings, hired cars to take the voters to the polls and got out through personal effort the biggest vote ever known in the city.

The bond issue defeat may result in Miss Brooks being nominated for mayor of West Hammond at the coming municipal election.

Take Shoes to Balk Pursuit. Minneapolis, Minn., Nov. 9.—Taking their victim's shoes so he could not follow them over a sharp cinder path, two negro highwaymen beat and robbed Frederick Kahn of Wauzau, Wis. According to Kahn the men secured \$125, a gold watch, his hat and shoes.

PROBE'S END IN SIGHT

Lorimer Investigators to Close Chicago Hearing Nov. 24.

Representative English on Stand Says Beckemeyer Told Him He Would Not Vote for Lorimer.

Chicago, Nov. 9.—The senate committee investigating the election of William Lorimer to the United States senate announced that the Chicago session of the inquiry will end Nov. 24. If not all testimony is completed here the hearing will reconvene in Washington, Dec. 5.

Representative George W. English, of Vienna, political and personal opponent of Lee O'Neill Browne, took the stand before the committee. O'Neill Varborough completed a day of cross-examination before Mr. English was called.

"Did you hear any report of Democratic votes going to Senator Hopkins?" Attorney Marble asked Mr. English.

"Yes, I heard a rumor that fourteen or seventeen votes were going to Hopkins the next day and I spoke to Speaker Shurtliff," said English. "He said that he had heard of it and if it was attempted he would denounce it. The next day the roll of the house was called first."

The testimony jumped to the day of Senator Lorimer's election and Representative English told how he walked to the statehouse with Former Representative Beckemeyer. Mr. English said Beckemeyer told him that he had been solicited to vote for Lorimer, but would not do it.

BAKER, THE QUAKER, HOME RUN MAKER.

Trappe, Md., will have enough material out of the world's series games to keep the fans of the community going all winter. Why? Well, that famous little place is the home of none other than John Franklin Baker, the third baseman and chief slugger of the Athletics.

On March 13, 1886, the hero of the 1911 world's series first saw the light of day. Baseball was his middle name, and, after playing around the lots of his home town for some time, finally, when he was twenty years old, he took a whirl at the semiprofessional game, joining the club at Risley, Md.

The following two years he played with the Cambridge (Md.) club, with Charley Herzog, the New York infielder, and the late St. Nichols, formerly of the Athletics, as side part-

Photos by American Press Association. TWO VIEWS OF FRANK BAKER, ATHLETICS' HARD HITTING THIRD BASEMAN.

ners in the infield. In the latter part of 1908 Manager Wetzell of the Reading club of the Tristate league, looking around for a young infielder, found Baker to his liking and signed him to play with his team.

It took Baker just one season to show that he was a big leaguer in a bush league outfit, and Connie Mack grabbed him up by purchase before the drafting season opened. Baker fairly burned up the Tristate league and has made good everything said about him when he entered the big show.

He is one of the best "cleanup hitters" that ever broke into baseball. A rather sure hitter, his value is doubled by his great ability to drive for extra bases.

He is one of the best pinch hitters in the American league. It is true he fell down in the first game of the world's series when a hit would have meant a run, but he more than made up for this when in the third game of the world's series, with the Athletics on run behind, he planted the ball into the bleachers in the ninth, after one down, and brought in the tying run.

In the second game Baker broke up the battle at Philadelphia with a homer also, only this time it was a drive that carried the ball over the right field fence, and there was a man on base. Most of his long hits are over the right field fence, and he has the distinction of driving two homers over the right field fence at Shibe park, Philadelphia, in one game.

He takes a good, healthy swing at the ball and puts every ounce of his 173 pounds into the swing. A good fast ball over the inside corner of the plate, with three men on base, and Baker up means slow music for any pitcher. The faster the ball the farther it will travel. He is just one inch short of six feet.

Cravath Makes Home Run Record. Left Fielder Cravath of the twice champion Minneapolis team of the American association batted twenty-eight home runs during the season, which is the best mark of the year in any of the baseball organizations.

Pit Brow Women.

The pit brow women work at the mouths of English coal mines in sheds open to the weather at the sides. The work which they perform has to do with the sorting of the coal according to size and quality and the freeing of it from stones. There is some lifting to be done and some pushing. There is some risk, but not a great deal. Women have been hurt by the catching of their clothing in the belting and machinery, but of late there has been more care than formerly in covering the parts of the machinery which proved dangerous. At the present time accidents are rare and confined for the most part to the crushing of fingers. There is dust constantly rising, and this makes the work untidy. Women working in coal get black faces as well as men, but they wear cloths on their heads, which keep the dust out of their hair, and the fact that they are in the open air, together with the constant muscular exertion required, is on the whole beneficial to their health. Many of the girls are fine figures and all have good color. They prefer the occupation to domestic labor or employment in factories. The wages they earn range from a shilling to 2s. 3d. a day. In the various colliery towns there are upward of 5,000 women thus employed.—Exchange.

LIKE MAGIC THIS HOUSE MAY BE TRANSFORMED

BERLIN, (Special)—A wonderful theatre, opera house and circus arena combined is springing into existence in Dresden under the auspices of the Saxon Ministers of Education and Finance. The building with its wonderful seating accommodation and its peculiar mechanical appliances may in a few hours be turned from a concert hall or theatre into a circus arena or even an amphitheatre in the center of which sports, horse shows or other contests may be carried on.

The architect responsible for all this is Her Stosch Sorrasani, a gentleman who has had vast experience in the building of arenas and coliseums. For the new building, the Roman amphitheatre also forms the ground scheme; but at one side of the vast arena with its tiers of seats, situated excentrically like a smaller circle just within the circumference of a larger circle, an enormous dome 36 yards in diameter is being built. Beneath this dome will be an ordinary theatre stage with all the usual equipment, while a hidden orchestra will divide the front of the stage from the arena floor. Thus one day, the open ring may be occupied by the tumbling clowns and performing elephants in the circus. The next day, the arena floor may be sunk a few inches by hydraulic machinery, the fauteuils extended right across the orchestra, and Wagner opera may be played before five thousand people. As soon as Lohengrin and his swan have disappeared, the fauteuils can be cleared away and the arena floor sunk to its greatest depth, from which a magnificent tier of terraced steps will rise to the highest point of the stage. Here the singers and musicians of the Ninth Symphony can be provided with an ideal resting place, or Mark Antony from the steps of the Capitol on the stage itself, can look down over all Rome to the outside limits of the arena floor. The magnificent possibilities of this mountain like show place have induced Herr Reinhardt the famous organizer of pageants to join forces with Herr Stosch, and Dresden in the future will witness some of the most colossal of spectacular productions. For instance, the three storied "Faust"—Heaven, Earth and Hell—will be produced hereon a scale which has hitherto been impossible.

COMING TO EARTH.

Flushed from his flight, the young aviator alighted from his aeroplane and allowed a dainty maiden in pink to conduct him across the field to the refreshment tent.

"You were splendid, Mr. Wing!" she exclaimed, while they ate strawberries and cream under the flapping canvas.

"Not at all, I assure you," protested the intrepid aviator, blushing between his bites.

"But you were," insisted his fair companion, with her mouth full of cream. "Do you know, I trembled for you while you were flying over our heads! What courage you showed!"

His color deepened, and he took the biggest remaining strawberry in his confusion.

"Oh, I should so love to fly!" she cried enthusiastically. "Could I, do you think? I'm very stupid. Does it require any particular application?"

"Er—no, none in particular," he answered. "Arnica or horse liniment—one's as good as another!"

OH, MERCY!

If Gussie possessed one suit he possessed a hundred. He had different suits for fishing, hunting, golfing, cricketing, walking, cycling, flying and everything else, and the perfect was his knowledge of the clothing question that you could never surprise him in a costume that did not fit the occasion.

But gamekeepers do not pay much attention to such details, and the man who was guiding Gussie over his new estate took small stock of garb.

"Hi! There goes a rabbit!" he cried suddenly. "Let him have it, sir!"

Gussie looked after the retreating bunny, but did not raise his gun.

"Why didn't you shoot?" asked the gamekeeper in surprise.

"I'm sorry, but I couldn't," replied Gussie mournfully. "I'm in my pleasant costume."

Put His Foot In It.

A young surgeon, who was very reticent and awkward, was asked to dinner by a lady who was at least fifty and tried to pass herself off as twenty, and apparently imagined that being rude and tomboyish assisted to sustain the youthful illusion.

At dinner she asked him to carve a fowl, and, never having carved a fowl before, and being painfully shy, he made a mess of it. Instead of trying to cover his confusion, his hostess called attention to it pointedly by looking down the table and saying loudly:

"Well, Mr. P., you may be a very clever surgeon, but if I wanted a leg off I should not come to you to do it."

"No, Lady Alice," he replied, politely; "but then, you see, you are not a chicken."

Feminine Fondness.

Abel—I told Miss Chellus I thought the only word that properly described you was "Peach."

Mabel—I suppose she said something "nice," as usual?

Abel—She said, "Perhaps that is the proper word. At any rate she looks well preserved."

MRS. GUS RUHLIN.

Wife of the one time heavy weight pugilist, is an ardent suffragette. She has hit upon the novel plan of holding sparring and wrestling exhibitions in New York City to raise funds for the Woman's Progressive Political league of which she is the organizer. The first exhibition will take place October 26. Mrs. Ruhlin has signified her intention of giving one of the sparring exhibitions.

SWELL HOTEL TO BE BUILT ALONG CANAL

Travelers Across Isthmus
Will Find All Comforts at Colon.

WASHINGTON, (Special)—Vice thing is easy for Uncle Sam, and nowhere is this demonstrated more forcibly than in the Panama Canal Zone. It is now announced that the Panama Railroad, which is owned by the United States, through the War Department, and which, in turn owns about everything along the "big ditch" from laundry to lodgings, is to build a magnificent hotel at Colon. This will be in addition to the Hotel Tilvill, now maintained at Ancon.

The new Hotel is to be called the Washington, and is to cost not more than \$500,000. It will be situated on Colon Beach, close to the waterfront, with a fine outlook on Limon Bay. In the rear, on the city side, it will face a large park, which is to be enlarged and beautified during the construction of the hotel. On the ocean side, improvements are to be made which will add to the beauty of outlook and the convenience of the hotel guests.

Among the latter will be an innovation in the form of a salt water swimming pool which will be open to the sea, though protected from wind and waves and stormy weather. A bathing beach will be provided in addition to the pool, and a strong sea wall is already in process of construction. The hotel building will be 300 feet long and will be constructed almost entirely of concrete. Woodwork will be reduced to a minimum. In the kitchens for the three dining rooms will be installed every known device for convenience, speed in serving guests, and cleanliness. On the first floor will be large reception, smoking and lounging rooms, and ballroom. On the second floor and also the third will be 35 bedrooms, so constructed as to be available for use as suites of as high as fifteen rooms. Shower baths will be a feature of most of the rooms.

Golden Silence.

Pleahd was not a bad horse to look at. She had a nice white and brown coat, a nice bushy tail, and a nice, gentle manner. But she possessed one incurable drawback. She couldn't see. This her new owner discovered a day from when he had bought the steed and demanded an explanation. "She's stone blind!" he exclaimed.

"I know she is," replied the dealer. "But—look here, man—you never told me anything about it!" spluttered the late purchaser.

"Well, you see, it was rather a delicate matter," answered the dealer, coughing slightly. "The man from whom I bought her didn't tell me himself, so I thought," he added, lowering his voice, "he didn't want it mentioned."

She Was Engaged.

"Do you belong to the cooks' union?" asked the woman who had advertised for a culinary expert.

"No, mum," the applicant replied. "I used to belong, but I got expelled because I stayed in a place more'n two weeks."

Not In It.

Giles—Horse racing is a peculiar thing, isn't it?

Miles—In what way?

Giles—Why, the majority of the horses in the race are not in it.

WHY SO WEAK?

KIDNEY TROUBLES MAY BE SAVING YOUR LIFE AWAY. DIXON PEOPLE HAVE LEARNED THIS FACT

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills make sick kidneys well. Here is Dixon testimony to prove it.

Mrs. William Toot, 512 W. Second St., Dixon, Ill., says: "I suffered for years from kidney complaint and my back ached persistently. I was so weak at times that I could not attend to my household and nothing did me any good. Finally, I got a box of Doan's Kidney Pills at Leake Bros. Co's Drug store, and they cured me. I feel that my experience should convince the most skeptical person of the merit of Doan's Kidney Pills. I know of a number of other people who have taken this remedy with great benefit." (Statement given February 5, 1907.)

RE-ENDORSEMENT

Mrs. Toot was interviewed on January 5, 1910, and she added to the above: "I have no hesitation in verifying my former endorsement of Doan's Kidney Pills. During the time that has elapsed, I have taken this remedy occasionally and it has always brought prompt and effective relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ILLINOISANS WORTH BILLIONS

Their Lands, Lots and Personalities Are Valued at \$6,312,484,641.

Springfield, Ill., Nov. 9.—The total valuation of Illinois lands, lots and personal property, as determined by the local assessors and reported to the state board of equalization, is \$6,312,484,641. The assessed value is one-third of this, or \$2,104,161,547. This is an increase over the assessment for 1910 of \$114,053,921, or 5 1/2 per cent.

These figures do not include railroads or the capital stock of franchise corporations, which amounted to \$200,607,186 in 1910. Eighty-two counties in the state show a total increase of \$119,639,886, while twenty counties show a decrease of \$5,585,965. Cook county shows an increase of almost \$71,000,000. Winnebago county is next, with an increase of almost \$4,000,000. LaSalle county shows a decrease of \$1,384,787.

ILLINOIS "DRYS" MAKE GAINS

Fewer State Towns Go "Wet" than in the Previous Election.

Springfield, Ill., Nov. 9.—Returns from the Illinois local option elections indicate a gain for the "drys." The results are as follows:

Jacksonville remains "dry" by about 150; Meredosia remains "dry" by 57; Petersburg remains "wet" by 59; Chandelville "dry" by 60; Kempsville, "wet" by 4 votes, and Hardin, "dry" by 5 votes; Tallula, "dry" by 78; Naples, "dry" by 39; Athens, "wet" by 40.

Mount Carmel remains "dry" by a majority of 422 votes; Coulterville stays "dry" by 3 votes; Jonesboro "dry" by 107 votes; Golconda "dry" by 156 votes.

\$15,000 FOR STRIKERS

Tag Day at Chicago Aids Cause of Illinois Central Strikers.

Chicago, Nov. 9.—Proceeds of the "strikers' tag day" attained a total of more than \$15,000, according to Miss Caroline Lowe, who had charge of the 400 women and girls who sold "tags" to aid the cause of the Illinois Central railway shopmen now on strike.

"The highest single contribution was a \$10 bill," said Miss Lowe, "and, of course, the lowest was the proverbial 'widow's mite.' There were many of the latter, mostly dropped into the boxes by newsboys, poor women and the like, the spirit of which was as sympathetic as that of the larger contributors."

DIPHTHERIA SHUTS SCHOOLS

Many Towns in Illinois Are Quarantined by Disease.

Springfield, Ill., Nov. 9.—The diphtheria epidemic in the state is worse than it has been for many years. The state board of health is constantly receiving requests for serum and for inspectors who will enforce quarantine and prevent the further spread of the disease.

The unusual weather conditions in the early fall are blamed for the epidemic. Schools have been closed in many counties of the state, and almost no section of Illinois is free from diphtheria.

DENEEN AT CAPITOL

Governor Meets Legislators and Discusses Special Session.

Springfield, Ill., Nov. 9.—Governor Deneen went to his office in the statehouse for the first time since he broke his leg, Sept. 3. His purpose was to meet state senators in an effort to persuade them to agree about the adjournment of the legislature.

All the subjects which Governor Deneen wishes to include in a call for a special session, if the present session adjourns, were discussed. These included the initiative and referendum, the recall and other reform measures.

LAND BOUGHT BY CHICAGOANS

Oliver Cody Buys 300 Acres at Sale of Kaskaskia Commons.

Chester, Ill., Nov. 9.—About 1,500 acres or nearly half of the lands of Kaskaskia Commons offered for sale by commissioners were disposed of, the land bringing an average of \$40 an acre.

Oliver Cody of Chicago was one of the large purchasers, buying 300 acres.

Monmouth City Attorney Quits.

Monmouth, Ill., Nov. 9.—Monmouth is minus a city attorney and corporation counsel. E. P. Field, who for several years has held that office, resigned because the city council refused to pass an ordinance requiring that complainants of crime violation be made by city officials only.

Joliet Police Judge Resigns.

Joliet, Ill., Nov. 9.—Chief of Police Harry Demiller, a former Cub twirler and exalted ruler of the local Order of Elks, resigned his position by request, following a meeting of the civil service commission. His appointment was not in accordance with civil service rules.

College President's Father Dead.

Bloomington, Ill., Nov. 9.—James Finley of Grand Ridge is dead of pneumonia, aged seventy-two. He was the father of John H. Finley, president of the College of the City of New York.

Use Butterine

The Very Best Grade is 10c per pound cheaper than creamery butter. It is cleaner than butter, just as wholesome, looks like butter, and tastes like butter and what difference does it make by what name it is called. Consult the facts, not our old customs. That is the underlying principal of all trust price boosting. The consumer following the old customs and thinking he must have their goods.

Get away from the butter idea and give our BUTTERINE a fair trial.
